- consider all complaints it receives regardless of whether or not the complainant is a client of the organisation.
- treat all complainants with respect, recognising that the issue of complaint is important to the complainant.
- maintain confidentiality of parties involved, keeping any information private to those directly involved in the complaint and its resolution. Information will only be disclosed if required by law, or if otherwise necessary.

- ensure support and advocacy is available to clients who make a complaint and require support.
- resolve complaints, where possible, to the satisfaction of the complainant.
- parents/carers have access to the organisation's complaints management policy.
- deal with all complaints in a timely manner, and aim to provide a formal response to the complainant within 10 working days from the complaint being received for a simple complaint which can be dealt with by frontline staff, and within one month for more serious or complex complaints.
- keep parties to the complaint appropriately involved and informed of progress of the complaint.
- ensure that the ODEEP Board of Management, members, staff and volunteers are given information about the complaint's procedure as part of their induction and are aware of procedures for managing client feedback and complaints.
- ensure all service users, stakeholders and members are aware of the complaints policy and procedures.
- ensure that all complainants are aware of and understand how to escalate their complaint to an external body.
- ensure that a complainant is not penalised in any way or prevented from use of services during the progress of an issue.
- ensure that feedback data (both positive and negative) is considered in organisational reviews and in planning service improvement.
- review and evaluate the accessibility and effectiveness of the complaints management system and continually improve its processes.
